### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Ronald O. Neerings on May 16, 2005:

I. **LISTING OF CLAIMS:**

- a. Claim 58, line 7, delete "said", insert "a".
- b. Claim 58, line 9, delete "a", insert "said".

### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The following is a statement of reasons for the indication of allowable subject matter: The instant application discloses a method of downconverting a first communication signal at a first frequency into a second communication signal at a second frequency that is lower than the first frequency. Prior art references (Lindfors et al. US Patent 6,438,366) show similar methods but fail to teach: **"using the pulses of the sampling pulse signal to sample selected phases of the first communication signal, wherein said second phase is a different phase than said first phase"**, as in claims 12 and 52; **"sampling a plurality of phases of each of at least two consecutive cycles of the first communication signal, wherein the sampling step includes activating a plurality of sampling switches in a first temporal order to sample said plurality of phases and providing said filter function by activating said plurality of switches in a second temporal order that differs from said first temporal order"**, as in claims 51 and 58.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
